Amount Due After Oct 1, 2022 \$3,194.58

CenterPoint Energy Ohio (CEOH) Notice of New Distribution Replacement Rider (DRR) and Capital Expenditure Program (CEP) Rates - On August 10, 2022, the Public Utilities Commission of Ohio (PUCO) revised CEOH's DRR rates and CEP rider rates. The DRR allows CEOH to recover the costs associated with its accelerated bare steel and cast iron pipe replacement program. The CEP recovers deferred costs associated with the Company's capital expenditure program.

The revised DRR and CEP rates will be applied to the bills of all CEOH customers and will be effective for service rendered beginning September 1, 2022. A residential customer's bill will increase \$1.19 per month (\$0.97 for DRR and \$0.22 for CEP) as a result of these rate changes. For more information, contact CenterPoint Energy Ohio at 1-800-227-1376 or online at www.CenterPointEnergy.com.

Supplier Information

If you have any questions about your gas supply charges call DTE ENERGY SUPPLY at 1-866-807-2209 or write to 414 SOUTH MAIN STREET, STE 200 ANN ARBOR, MI, 48104.

When shopping for a natural gas supplier, it may be useful to compare supplier offers with the standard choice offer (SCO) rate available to eligible customers, which varies monthly based on the market price of natural gas. Price represents one feature of any offer; there may be other features which you consider of value. More information about the SCO and other suppliers' offers is available at energychoice.ohio.gov or by contacting the PUCO.

Choice opt-out

CenterPoint Energy is required to include your name, address and usage information on a list of eligible customers that is made available to other retail natural gas suppliers or governmental aggregators. If you do not wish to be included on this list, you can inform us online at CenterPointEnergy.com/Choice in the FAQ section, or you can send a written request to CenterPoint Energy, Choice Program Administration, P.O. Box 209, Evansville, IN 47702-0209.

Also, you can call us at 800-227-1376 to complete the process. Even if you remove your name from the list, you can still participate in Ohio Choice. If you have previously notified CenterPoint Energy that you wish to have your name removed from the supplier list, it is not necessary for you to take any action.

A safety message from CenterPoint Energy

If you smell natural gas, leave immediately. Call our Gas Leak Hotline at 800-296-9815. Do not use or store flammable products such as gasoline in the same room or area near the water heater or any other gas appliance.

Si percibes un olor a gas natural, sal inmediatamente. Llama a nuestra línea telefónica para fugas de gas a uno de los números de teléfono que aparecen arriba. No use ni almacene productos inflamables tales como gasolina en la misma habitación o en áreas cercanas a un calentador de agua u otro tipo de aparato a gas.

How to read your meter

The following is an example of how to read a typical meter index.

Look at the four dials with their curved arrows. Read from right to left as follows:

1. Read the "thousand-foot" dial as 7, the last number that the pointer passed. Note that the curved arrow on the dial shows a clockwise movement of the pointer.
2. Read the next dial, the "100-thousand" dial. The curved arrow on the dial above shows a

counterclockwise direction. The pointer is near the 9, but to be sure whether to read it as that number or the lower number 8, the previously mentioned "same or lower number rule" must be applied. Since the pointer in the "thousand-foot" dial to the right is nearer the 8 and the pointer has not reached the 0, the "100-thousand" dial should be read as 8.

3. Read the "100-thousand" dial, it seems to point to 2. Double-check by using the rule above. Since the pointer of the "100-thousand" dial is between 8 and 9, take the lower reading number, 1, for the "100-thousand" dial.

4. Read the left-most dial, the "million-foot" dial. The pointer is near the 6. Using the "same or lower number rule", we find the pointer on the dial to the right is between 1 and 2, so we read the "million-foot" dial exactly as the number it is on or near, 6.

The entire meter reading is 6187.
